Profile

My name is Harmish Patadiya, and I have over two years of experience specializing in web design. My expertise lies in crafting visually appealing and responsive websites using HTML, HTML5, and CSS/CSS3. I am proficient in Bootstrap, allowing me to create mobile-first designs efficiently. I also have experience in WordPress design, particularly with Elementor, and converting Figma designs to HTML. My skill set includes a foundational understanding of UI/UX design, jQuery, and JavaScript, which I apply to enhance user experience and interactivity across various web projects.

Skills

- HTML, HTML5
- CSS, CSS3
- Figma to HTML
- UI/UX Design
- Basic Knowledge of JavaScript

Certified Web Designer Course

Ms Office   2020 - 2021

Certified Course of Basic Knowledge

10th   2019 - 2020

(SSC)

Work Experience

▶ **Latitude Techno labs**   (Present)

Web Designer / Dec - 2023

At Latitude Technolabs, I designed responsive, visually appealing websites using HTML, CSS, and basic JavaScript. Applying UI/UX principles and Bootstrap 5, I ensured consistent, mobile-first designs that met client needs.

▶ **Clients Now Technologies**

Jr. Web Designer / 2022 - 2023

At Clients Now Technologies, I specialized in web design using HTML, CSS, and Bootstrap 5. I focused on SEO-friendly design, template editing, and WordPress Elementor development to deliver customized, high-performing websites.

▶ **Raindrop Infotech**

Training Web Designing / 2022 - 2022

At Raindrop Infotech, I designed visually appealing, responsive web pages using HTML, CSS, and Bootstrap 5, ensuring cross-browser compatibility and enhanced user experience through modern, adaptive layouts.
